# 1 Introduction to the Root of the Society

A sincere and warm welcome to the root of our network. We are proud to have you with us. Here, we have a network of pdfs, each pdf acting as a node in what we vision as our tree of knowledge. As the tree grows, we hope to provide a valuable resource to anyone who wants it. From here, the links, should they be maintained sufficiently, will take you along every pathway in the Society Tree, and you can follow the directions to any topic we have written on. The rest of the section of this pdf is more information about how the society operates and how you can use it or be involved in it. Carry on.

## 1.1 Pierre-Simon Laplace

Figure 1: [Wikipedia : Pierre-Simon Laplace](#).

## 2 Contact and Connections

Currently our email is: [thelaplaciansociety@gmail.com](mailto:thelaplaciansociety@gmail.com). At this point, we accept communications for any reason via this email.

## 3 Members of the Society

The small team of managing officers are the members of this society.

## 4 Operations of the Society

The society is made of a group of people who like to study and write. We believe that writing, for us writers, that the best way to learn is by compiling the knowledge into forms we want to come back to and challenging ourselves to make these forms good enough to be used by others. We share these writings freely, since we do not pretend that these writings deserve to be paid for.

## 5 Directions to Contribute

Please register your interest with the society email.

## 6 Directions to Donate

Financial support works wonderfully to invigorate our writers and allow them to focus more of their time and effort on their projects. We welcome donations from any reader who wishes to lend their support, if and only if they find our PDFs worthy of it. Thank you.

---

For now, we ask that you register your interest to donate with the society email.

## 7 Directions to Study

In this section, we declare the existence of routes of study we have available. These are the main branches of the Society Tree. Click on them to be taken to the roots of these branches.
